ACCELERATE YOUR SALES PROCESS

Instant fax signatures – signed faxes routed straight to Salesforce.

Instant e-signatures – easiest electronic signature product in the world.

Mobility – Close deals in real-time from anywhere.

Availability – Increase effectiveness by accessing agreements from any browser.

TRACK EVERY DEAL IN REAL-TIME

Track your team – Use account sharing to track contracts for your entire team or department.

Analyze performance – Instant visibility into when documents are really getting signed, how and by whom.

Forecast with confidence – Manage your pipeline and improve the accuracy of your revenue projections.

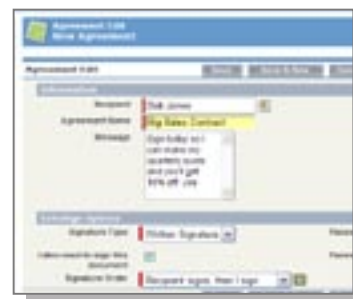

SIMPLE CONTRACT ADMINISTRATION

Decrease post-sale administration – All parties automatically receive a copy of the signed agreement. No more scanning and photocopies.

Never misplace a contract – A signed PDF copy is always stored right in your Salesforce account.

Automate communication – cc: accounts receivable, lawyers or admins and let EchoSign do the rest.

1 Send the contract directly from your Salesforce account

2 The customer prints, signs and faxes it back

3 The signed contract is automatically filed in Salesforce and a PDF copy is instantly emailed to the customer

No annual contract. Nothing to download. Get started today!
